

AGRO PACK
IRAQ ERBIL 2021

Netherlands Agri&Food pavilion
Erbil, Iraq – 23rd to 26th November 2021

 agro + poultry

 food + bev tec

 food ingredients

 food + hospitality

On behalf of the Ministry of Agriculture, Nature and Food Quality, East-West Trade is organizing a Netherlands pavilion at the leading trade fair: Agropack Erbil set to take place in Iraqi Kurdistan from November 23rd to November 26th 2021: www.iraq-agrofood.com.

Agropack Erbil

Agropack Erbil 2021 will be taking place from November 23rd to November 26th 2021 at the Erbil International Fairground. With a total exhibition area of approximately 17,000 m², Agropack Erbil is the largest agri-food event in Iraq. The event consists of the following categories: Agro + poultry (full agriculture coverage including horticulture and Livestock), Food + Bev tec, Food Ingredients and Food and Hospitality.

Supported by the Local Autonomous Government of Iraqi Kurdistan, the trade fair attracts many decision-making visitors from public and private companies and organizations across Iraq and the region.

Iraq

After a turbulent period, Iraq is in the process of serious reconstruction, with Iraqi Kurdistan leading the way. This region is economically and politically more stable than the rest of the country and is working hard on improving local food production and processing.

The Kingdom of the Netherlands supports the agricultural sector of Iraq with various public-private projects that include knowledge transfer. Recently, the Dutch government signed an MoU with the regional government of Iraqi Kurdistan, in which it provides support with medium and long-term planning for its agriculture and horticulture. The government of Kurdistan sees the Netherlands as a key partner for technology and knowledge in these fields.

Pavilion and participation

Participation at the trade fair is possible with a custom-made company stand in the Netherlands pavilion. In addition, the Ministry of Agriculture, Nature and Food Quality is organizing a Netherlands Lounge available to the Dutch business community. The Lounge offers space to make contacts and network. In collaboration with the Consulate General in Erbil and at the request of participating companies, matchmaking will be provided during the exhibition days.
